Levo® Summit manual assisted standing wheelchair

Code : 0400-0110

The innovative design of the Levo Summit manual wheelchair delivers the features of an active wheelchair and state of the art standing technology, allowing you to reach the perfect standing position from any seated position you choose. Delivering exceptional performance and style, the Levo Summit combines the lowest stand-up wheelchair weight with the highest user weight capacity.

FEATURES

- A manually assisted, staged standing mechanism, supported by gas strut system for smooth operation
- Stop the wheelchair at any stage while going from seated to standing
- Numerous health benefits due to the anatomically correct standing position
- Six points of contact in standing for stability and security
- Lightweight aircraft aluminium makes it easy for the user to propel
- Easily transported with quick release wheels, castors and a fold down backrest
- Highly configurable to suit individual needs
- Different colour and size options available

Levo® Summit manual assisted standing wheelchair
