

Cobi Rehab XXL Rollator king and basket

Code(s): 9661, 9555

The Cobi Rehab XXL Rollator king is a reinforced rollator designed for bariatric users. With a lightweight and discrete design, the rollator supports a very high user weight of 325kg. The frame fits through doorways and folds easily for transport and storage by lifting the seat.

Often a critical point of rollators for bariatric users is the effectiveness of the brakes. The 510mm wide seat has a back arch that provides comfort and safety, preventing the user's weight from shifting too far back.

FEATURES

- Iron forks and four large 200mm wheels ensure a smoother drive and safer handling
- Highly responsive, feather-touch hand brakes for superior control and support
- Folds down for transport and storage
- Basket attached
- Powder-lacquered aluminium frame
- Large supportive seat with back support
- Convenient basket for personal belongings
- Reflectors fitted to handles for safety
